Forum #6

**14 March 2024, 7–9pm
Cullompton Community Centre**

Join us for an evening of discussion about Nature Recovery on the River Culm

Nature Recovery is a big topic in 2024 as, across England, statutory Local Nature Recovery Strategies are being developed for the first time. With a range of fascinating speakers we'll explore what this means for the River Culm.

Why does the Culm flood and what can we do with all the water?

Julian Payne, Geomorphologist, Environment Agency

What role could beavers play in a new future for the Culm?

Matt Holden, Beaver Project Lead, Devon Wildlife Trust

Crayfish of the Culm and plans for their rescue

James Maben, Saving Devon's Native Crayfish Project

The Culm at Killerton: how nature is making a comeback

Tim Dafforn, Countryside Manager, National Trust

Water Quality in the Culm - citizen science driving change

Richard Horrocks and Tim Burt, Riverfly and CSI volunteers

Free event with complimentary wine and cheese

Booking required
